ABOUT TEAM BHĀRAT TALK

Pandemic COVID-19 has thrown the world out of gear so that everyone believes that the world will not be the same, entire world order is in for a significant reshuffle. Therefore, this is the best opportunity that has come our way, and if we seize it, we might make history. It is that one person or a small group of persons cannot achieve such a mammoth task. It must be a collective effort of like-minded dedicated citizens of emerging Bhārat. With this aim and ambition, we are inviting individuals, particularly enthusiastic youth from education, culture, social, industry, commerce, medicine, and all walks of life to join in our collective movement to create Bhārat of our dream was some centuries ago.

Our mission is to collect the youth's intellect and harness its might in the form of a discussion of the artistic and fresh ideas and their successful implementation. The purpose is to gather the independent youth and organizations in collaborative communication and motivate them to study the feasibility of their plans to provide its impact from grassroots to the highest shore/summit of societal structure.

Our vision is to collaborate and compose the unified efforts of young leaders for the nation's holistic development and, ultimately, the global family.

Objective **TEAM BHĀRAT**

- Collecting and structuring the discussion forums including youth from every geographical/social/political part of Bharat.
- Conscing the fresh ideas and study their viability in post-COVID-19 era
- Study the feasibility of innovative social, scientific, infrastructural ideas while connecting youth with concerned organizations/authority.
- Documentation of pilot study of ideas in order to prepare a policy digest .
- Defining sustainable ideation of the responsible youth and organizations in the future.
